NOTES TO FINANCIAL STATEMENTS

SEVEN MONTHS ENDED JULY 31, 1983

1. SIGNIFICANT ACCOUNTING POLICIES

These financial statements are prepared in accordance with generally accepted accounting principles except for the matters referred to in note 1(a) and (b).

(a) Fixed assets

All fixed assets are stated at cost. No depreciation is provided on fixed assets.

(b) Salaries

All salary costs relating to the administration of the Market Share Levy Fund are provided for by the Province of British Columbia, Ministry of Agriculture without reimbursement from the fund and are not presented in these financial statements.

(c) Write-off of refund payable to producers

The Milk Board writes off refunds due to milk producers which have been outstanding for over one year.

2. WITHDRAWAL FROM THE COMPREHENSIVE MILK MARKETING PLAN

The Milk Board withdrew from participation in the comprehensive Milk Marketing Plan effective August 1, 1982. During the year the Milk Board only collected a levy sufficient to retire British Columbia's portion of the 1981/82 deficit incurred by the Canadian Dairy Commission.

The Canadian Dairy Commission has indicated, but not requested a net outstanding levy for the fiscal year ended July 31, 1983 of $3,789,000. The Milk Board is of the opinion that these levies are not applicable, will not be collected, nor remitted.

3. PRIOR YEAR'S FIGURES

The prior year's figures were subject to examination by the Comptrollers General's Department of the Province of British Columbia whose objective was to examine and perform tests of the records and supporting documentation to enable them to prepare the financial statements for the 1982 fiscal year.

Since the Comptrollers General's Department is not legally in the position to provide an audit opinion on the Milk Board's financial statements it was not an integral part of their audit objectives.

4. CHANGE IN YEAR END

The year end of Market Share Levy Fund was changed from December 31 to July 31 to coincide with the year end of the Canadian Dairy Commission.

We have examined the balance sheet of the Milk Pool Equalization Fund as at December 31, 1983 and the statement of receipts, disbursements and surplus for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Fund as at December 31, 1983 and the results of its operations for the year then ended in accordance with the basis of accounting described in note 1, after giving retroactive effect to the change in the method of accounting for receipts and disbursements as described in note 3, applied on a basis consistent with that of the preceding year.

1. SIGNIFICANT ACCOUNTING POLICY

These financial statements are prepared in accordance with generally accepted accounting principles except that all salary costs relating to the administration of the Fund are provided for by the Province of British Columbia, Ministry of Agriculture, without reimbursement from the Fund and are not presented in these financial statements.

2. PRIOR YEAR'S FIGURES

The prior year's figures were subject to examination by the Comptroller General's Department of the Province of British Columbia whose objective was to examine and perform tests of the records and supporting documentation to enable them to prepare the financial statements for the 1982 fiscal year.

Since the Comptroller General's Department is not legally in the position to provide an audit opinion of the Milk Board's financial statements, it was not an integral part of their audit objectives.

3. ADJUSTMENT OF PRIOR YEARS' FINANCIAL STATEMENTS

In order to conform with generally accepted accounting principles, the 1982 comparative figures have been adjusted to reflect a change from a cash to an accrual basis of accounting. The net increase to surplus resulting from the change to the accrual basis of accounting is $3,174, all of which relates to the surplus reported at the beginning of 1982. The surplus, as previously reported at the beginning of 1982 of $52,041, has been adjusted to $55,215.
